# Introducing the Investec Euro Stoxx50 Digital Plus Equity Structured Product

The Investec Euro Stoxx50 Digital Plus Equity Structured Product (“Digital Plus”) is a 3.5 year financial instrument listed on the Johannesburg Stock Exchange Limited (“JSE”).

The Digital Plus provides the investor with the opportunity to participate in the growth potential of the Euro Stoxx50 Index (Index) by providing a 70% return should the Index be flat or positive at maturity, PLUS 100% of the upside beyond 70% in Rand.

In addition the investor receives 100% capital protection if the Index ends negative provided the Index has not fallen by more than 40% at maturity.

The Digital Plus is a credit linked ESP where the investor takes credit risk on both Investec Bank Limited (IBL) and Standard Bank of SA (SBK).

IBL is the product provider, liquidity provider, issuer and market maker and is subject to the listing requirements of the JSE.

## Important dates

<b>Closing date:</b> 19 November 2018	<b>Trade date:</b> 29 November 2018	<b>Listing date:</b> 14 December 2018	<b>Maturity date:</b> 31 May 2022
--	--	--	--------------------------------------

## Summary of the investment

	<b>A 3.5-year equity investment</b> linked to the performance of the Euro Stoxx50 Index (“Euro Stoxx50”). The return will be calculated in Rand
	<b>Earn a minimum 70% digital return in Rand</b> if the market value of the Euro Stoxx50 is flat or positive at maturity, PLUS unlimited uncapped upside above 70%
	<b>100% downside protected at maturity</b> in Rand provided the market value of the Euro Stoxx50 does not end down more than 40% at expiry and no credit event has occurred in respect of the Credit Reference Entity
	<b>Cash investments from R50 000</b> (minimum) and increments of R10 000
	<b>Daily liquidity</b> on the JSE with a 1% mid to bid spread in normal market conditions

## Liquidity

IBL makes an active daily market in the investment on the JSE with a bid to mid-spread of 1%, enabling investors to exit early to the extent they have unexpected cash flow requirements or if their investment view changes.

This investment is designed to be held to maturity. Early redemptions are not encouraged as any capital protection and proposed investment returns only apply at maturity.

## Unlimited potential for enhanced returns

By investing in the Digital Plus ESP, the investor has exposure to the performance of the Euro Stoxx50 Index for a three and a half year period. At maturity, if the market value of the Euro Stoxx50 is flat or positive, the Digital Plus ESP will deliver a return equal to the initial investment amount plus 70%. Should the market value of the Euro Stoxx50 end higher than 70% investors will also receive any upside above that level.

## Examples of potential returns

The table below shows examples of the potential return of the Digital Plus ESP, at maturity based on an initial investment of R100 000.

The actual amount that an investor will receive is dependent on the amount invested, whether or not a credit event has occurred and the performance of the Euro Stoxx50 over the term of the investment.

<b>Euro Stoxx50 basket returns at maturity*</b>	<b>Initial Rand amount invested</b>	<b>Digital Plus ESP investment value at maturity</b>
78%	R100 000	R178 000
27%	R100 000	R170 000
12%	R100 000	R170 000
-21%	R100 000	R100 000
-39%	R100 000	R100 000
-42%	R100 000	R58 000

\* *Theoretical returns for illustrative purposes*

## Capital protection at maturity

In times of adverse market performance, capital protection helps to shield an investor's investments from losses.

If at expiry the market value of the Euro Stoxx50 has not fallen by more than 40% of its initial market value and no credit event has occurred in respect of the reference entity, the Digital Plus ESP will be 100% Capital protected, however, if the market value of the Euro Stoxx50 has fallen by more than 40% of its initial market value on the Maturity Date, the investor will be exposed to the full downside risk of the Euro Stoxx50.

## What are the risks to consider before investing?

- While it is possible for an investor to exit the investment before the scheduled Maturity Date, the Digital Plus ESP is designed to be held for the full investment term.
- During the life of the Digital Plus ESP, the value could be lower than the stated protection level irrespective of the market value of the Euro Stoxx50 at the time.
- The early sale may result in a loss as the nature of the Digital Plus ESP is such that the capital protection feature is only available at maturity.
- The return of the Digital Plus ESP will be based on the market value of the Euro Stoxx50. The value of the Euro Stoxx50 fluctuates and changes to these levels cannot be predicted.
- Past performance of the Euro Stoxx50 should not be seen as an indication of future performance.
- By investing in the Digital Plus ESP, holders may earn lower returns than if they had invested directly in the shares that are tracked by the Euro Stoxx50.
- The investor takes credit risk on IBL as Issuer, as well as SBK, details of the credit risk are set out more fully below.

**Important:** *The Digital Plus ESP is a listed instrument on the JSE. Investors will need to hold a stockbroking account to purchase the shares. Please request the fee schedule from your Stockbroker.*

## What happens if a credit event occurs?

As the ESP is credit linked to Standard Bank of SA, should a Credit Event (bankruptcy, failure to pay, obligation default, government intervention, repudiation/moratorium or restructuring) occur in respect of SBK, the return would be reduced as set out in more detail in the term sheet below. This could result in a total loss of some or all of the ESP value which relates to the Capital protection (as determined by the calculation agent), regardless of the performance of the Euro Stoxx50.

If a credit event occurs with respect to SBK on or before the maturity date, IBL, as calculation agent, will obtain tradable quotes in the market, in respect of the obligations of SBK, and will determine a recovery price (expressed as a percentage) based on such quotations adjusted to take into account the portion of IBL's hedge position affected by the credit event. The return due to the investor will then be equal to the market value of the ESP multiplied by such adjusted recovery price, which will be payable on the maturity date. This reduced return will earn interest at the overnight South African Futures Exchange ("SAFEX") rate, from the date upon which it is determined that the credit event occurs, until the scheduled maturity date.

IBL gives no representations or warranties as to whether or not a Credit Event could occur in relation to SBK, and the investor is advised to perform its own evaluation of the credit worthiness of SBK, and the suitability and appropriateness of this investment, based on the investor's own judgment and upon advice from such tax, accounting, regulatory, legal and financial advisers as the investor deems appropriate and/or necessary.

## Costs are controlled

All fees, including distribution, JSE listing costs and licensing costs, have been priced into the product and will not affect the investor's return. A distribution fee of 1% of the investment amount (inclusive of VAT) will be paid annually in advance in years 1, 2 and 3 to the Financial/Investment Professional.

## Tax implications

The information provided is general information and should not be construed as tax advice, taxation legislation and its interpretation may change. For as long as an investor is the holder of a Digital Plus ESP, they will be the owner of an ETF. Section 9C of the Income Tax Act ("Act") deems receipts and accruals arising from the disposal of exchange traded funds to be of a capital nature if the taxpayer was the owner of the equity share for a continuous period of at least 3 years immediately prior to the sale.

The tax consequences for investors who elect to sell their exchange traded funds before a period of 3 years has elapsed will be dependent upon individual circumstances and any profit realised from the sale may be subject to Income Tax and/or capital gains tax. It is recommended that prospective investors seek independent professional legal, tax and accounting advice and consider the investment in the light of the investor's particular circumstances.

No responsibility is accepted by IBL for the treatment of any court of law, tax, banking or other authority in any jurisdiction of the investment and no undertaking, warranty or representation is given with regard to the outcome of any such investment. All opinions, statements and analysis expressed are based on information, which was current at the time of writing and from sources, which Investec Structured Products believes to be authentic and reliable.

## Application form and term sheet

The information set out in this application form and term sheet provides a summary of the Digital Plus ESP only and should be read in conjunction with the brochure. Terms used, but not otherwise defined herein shall have meanings given to them in the relevant pricing supplement. The full terms and conditions of the Digital Plus ESP will be set out in the pricing supplement read with the application form and term sheet. The pricing supplement will be made available on the listing date on the Investec ICIB website at [www.Investec.com/invest](http://www.Investec.com/invest).

Prospective investors must ensure that they are fully aware of the risks involved when investing in financial products. It is recommended that investors seek professional advice and read the applicable pricing supplement and warrant and note programme prior to making any investment decision. Details of this programme are available on the IBL website at [www.Investec.com/invest](http://www.Investec.com/invest) or from your stockbroker.

Completion, signature and submission of this application form and term sheet by the investor constitutes a mandate for IBL to implement the investment in the Digital Plus ESP per the terms and conditions set out herein.

The implementation of the Digital Plus ESP investment remains subject to the acceptance by IBL of the signed application form and payment of the relevant minimum investment amount by the investor.

In addition, IBL reserves the right not to implement the Digital Plus ESP if any change in circumstances occurs which would adversely affect its ability to implement the investment. In such an event, IBL will notify the investor and return the investment amount to the investor's nominated stock broking/bank account.

The Euros Stoxx50 represents the investor's right to a basket of units in an exchange traded fund, Sygnia Itrix Euro Stoxx50 ETF (SYGEU), which is listed on the JSE and tracks Euro Stoxx50 Index. The enhanced return is provided by an Over-The-Counter option over the SYGEU.

At maturity, if the market value of the underlying Basket is greater than the maturity value of the Digital ESP, a sufficient number of the SYGEU Euro Stoxx50 units will be sold on behalf of the investor, in order to pay the premium, with the balance of the underlying Basket being delivered into the investor's stock broking account.

However, if the market value of the underlying Basket is worth less than the maturity value of the ESP, all of the SYGEU in the underlying Basket will be sold for an amount equal to the maturity value of the Digital Plus ESP and the proceeds will be settled via the JSE.

## Term sheet

The terms outlined below represent the payoff profile of an investment in the Digital Plus ESP:

### Terms

<b>Product name</b>	Investec Euro Stoxx50 Digital Plus ESP
<b>Issuer</b>	Investec Bank Limited (“IBL”)
<b>Credit reference entity</b>	Standard Bank of South Africa (“SBK”)
<b>JSE code</b>	SPIB29
<b>Index</b>	Euro Stoxx50 Index – Bloomberg Code “SX5E Index”
<b>Investment currency</b>	South African Rand (“ZAR”)
<b>Settlement exposure currency</b>	ZAR
<b>Minimum investment</b>	R50 000 per ESP and multiples of R10 000 thereafter
<b>Investment term</b>	3.5-years
<b>Close date</b>	19 November 2018
<b>Trade date</b>	29 November 2018
<b>Listing date on the JSE</b>	14 December 2018
<b>Allocation of the units to investors stockbroking account</b>	17 December 2018 via the Central Securities Depository Participant (CSDP)
<b>Settlement date</b>	Maturity date plus 5 business days
<b>Maturity date</b>	31 May 2022

## Terms

<p><b>The final value delivered on maturity will be calculated as follows:</b></p>	<p>If the Final Euro Stoxx50 Value is greater than or equal to the Initial Euro Stoxx50 Value and provided that no Credit Event has taken place:</p> <p><b>Maturity Value = Initial Investment x (1 + (Digital Return + Investment Growth))</b></p> <p><b>OR</b></p> <p>If the Final Euro Stoxx50 Value is less than the Initial Euro Stoxx50 Value and no Credit Event has occurred and the Barrier Level is not breached:</p> <p><b>Maturity Value = Initial Investment x Capital Protection</b></p>
<p><b>Digital Return</b></p>	<p>70%</p>
<p><b>Barrier Level</b></p>	<p>60% of the Initial Euro Stoxx50 Level – (a fall of 40% on Maturity Date)</p>
<p><b>Index Levels</b></p>	<p><b>Initial Euro Stoxx50 Value:</b> The closing value of the Euro Stoxx50 on the Trade Date as published by Bloomberg.</p> <p><b>Final Euro Stoxx50 Value:</b> The 3 day average of closing prices of the Euro Stoxx50 up to and including the Maturity Date as published by Bloomberg</p>
<p><b>Investment Growth</b></p>	<p>Investment Growth = max(0, (Final Euro Stoxx50 Value/Initial Euro Stoxx50 Value - 1 - Digital Return))</p>
<p><b>Capital Protection</b></p>	<p>If on maturity Final Euro Stoxx50 Level/Initial Euro Stoxx50 Level &gt; 60% (Barrier not Breached) then: Capital Protection = 100%</p> <p>If on maturity Final Euro Stoxx50 Level/Initial Euro Stoxx50 Level &lt;= 60% (Barrier Breached) then: Capital Protection = Final Euro Stoxx50 Level/Initial Euro Stoxx50 Level</p> <p>If on Maturity Date the Barrier Level has not been breached, the Capital Protection in ZAR will be 100%.</p> <p>If the Barrier Level has been breached (down more than 40%), the investor is exposed to the full downside risk of the fall in the market value of the Index from the Initial Index Value, and the Capital Protection will be equal to the Final Euro Stoxx50 Value/Initial Euro Stoxx50 Value, expressed as a percentage</p>

## Terms

<b>Charges</b>	All listing and administration fees have been priced into the Digital Plus ESP and there are no additional charges when investing
<b>Credit Events</b>	Bankruptcy, Failure to Pay, Obligation Default, Repudiation/ Moratorium, Government Intervention or Restructuring
<b>CE Factor (Credit Event Factor)</b>	The recovery price (expressed as a percentage) of unsubordinated bond or loan obligations of the Reference Entity based on tradable quotations obtained in the market, and adjusted to take into account the portion of IBL's hedge position affected by the Credit Event, determined by IBL, as calculation agent
<b>CE Interest (Credit Event Interest)</b>	If a Credit Event occurs prior to the Maturity Date, the investor will receive interest (at the overnight SAFEX rate) in respect of the Reduced Return Amount, from the date upon which the occurrence of the Credit Event is duly confirmed, to the Settlement Date
<b>Early Redemptions</b>	Early Redemptions are made by selling the Digital Plus ESP on the JSE and will be subject to the rules of the JSE settlement system. IBL will be a market maker for the Digital Plus ESP at the prevailing mark to market rate of the instrument, less a bid to mid 1% spread. The price of the Digital Plus ESP is subject to various factors including volatility, prevailing interest rates, exchange rates and market levels and investors should be aware that the <b>Capital Protection</b> , if any, is only applicable at maturity. Please note that the JSE price may not reflect the price at which IBL is prepared to trade
<b>Fees</b>	Financial/Investment Professionals ("Distributor") will receive a distribution fee of <b>1.00% p.a.</b> (inclusive of VAT) for years 1, 2 and 3. These fees are priced into the Digital Plus ESP, with 100% allocation of funds into the investment.
